

CASE STUDY
CASTLE PRIMARY SCHOOL

TOTUS

Sector: Education
Client: BAM
Scope of Works: Mechanical and Electrical Installation
Contract Value: £950k

A new primary school which consisted of 17 classrooms, kitchen, main hall, offices, toilet areas, food science room and rooms for special educational needs.

The school was funded by the Educational Funding Agency and was a design and build project.

We decanted the IT System from the old school to the new school and re-commissioned it. This included all active equipment and telephone systems.
