

Sector: Commercial/Retail
Client: Multi-National Retailer
Scope of Works: New Build - Mechanical & Electrical Installation
Contract Value: £2.4m

This International head office of a prestigious UK based retailer boasts 65,000sqft of brand new prime office space within Plymouth. This highly efficient modern new build is linked to a flagship superstore and car-park complex. The facilities provided include the latest design in high energy efficient lighting, HVAC systems and flexible heavily serviced office space. This facility also offers a state-of-the-art data centre with hot and cold rack cooling, high security systems and integrated fire suppression systems.

Working in partnership with EDP Environmental, Totus were involved from the outset of design, cost planning and feasibility studies to provide a service from conception through to completion, in order to meet the clients exact outline brief.

This fast-tracked project was completed on time and within budget.
