

CASE STUDY CITY COLLEGE PLYMOUTH – STEM BUILDING

TOTUS

Sector: Education
Client: Kier
Scope of Works: Mechanical and Electrical Installation
Contract Value: £2.2M

The £13m state-of-the-art facility opened in Autumn 2017 and boasts a flexible learning environment that simulates 'real work' scenarios with industry-standard workshops, science and sport laboratories and media studios.

It is equipped with high-tech resources to support a broader and more relevant STEM (science, technology, engineering and maths) curriculum.

The Centre features fully furnished science laboratories, multiple computer workshops, a new digital TV studio, editing suites, animation studio, live recording studio, maths teaching spaces and reception area.

Services Provided:

- LTHW Heating Systems
- Ventilation
- Hot and Cold Water Services
- BMS Automatic Controls
- Air Conditioning
- Above ground drainage
- Small Power and Lighting
- Fire Alarm System
- Intruder and CCTV Systems
